I highly recommend Basti at Zoeta Dogsouls to train any dog. Moon is now our 7 month old soi dog and we have been working with Basti for the last 2 months. Since the first training session I could see a change in behaviour not just in Moon but myself included. Basti does not just train your dog but trains you as well. I feel very confident that I can now control Moon on any situation that is presented. Moon is able to walk off leash and listens to when I call him back. He does search and retrieve in the mornings which calms him down for the day.

We also left Moon at Basti as he offers dog boarding. After 3 weeks with Basti, Moon is so much calmer does not need too many corrections during our walks or training sessions. I like the dog boarding style as they are not locked in kennels at all. The dogs are able to roam free in the yard during the day and get placed in a common room where they all sleep together.

I highly recommend Zoeta Dogsouls to anyone that wants their dog to be trained as his way of training. Check out his Facebook page for videos that can show you how he does it.

Basti at Zoeta helped me and my pack of 3 female dogs so much. I called him when 2 of the dogs were fighting viciously and often...he helped me restore order in the house! After our 2 month session, balance is restored in the home and we are all happier and closer now. I will forever be grateful to Basti for helping me so much! He is a dog master and has so much to teach, I couldn't recommend him more!

Basti is a fantastic dog trainer. We worked with him for two months and it was a very positive experience. Basti is very knowledgeable about canine behaviour and already after the first session I could feel what a difference the training made. Most importantly, my dog really loved it! He is a calmer and happier dog and we have a much stronger relationship now. I highly recommend Zoeta Dogsoul to anyone looking for a dog trainer in Chiang Mai!

Our three delightful Boston Terriers were out of control. So I did an online search and found Zoeta Dogsoul. I contacted them and got an immediate response from Basti. We hired him for eight training sessions at our house and every Saturday for the next two months, Basti showed up on time and worked his magic with our rascals. It didn't even take the full eight weeks before we had a trio of very good boys! The difference from how they behaved before this course and how they are now is like the difference between night and day.

I highly recommend Basti. You will learn as much about how to communicate with your dog as your dog will learn from this training program. We'll bring Basti back from time to time for quick, one-day refresher classes.

Basti is really great! It's the first time that I have a dog and Basti helped me not only training it but he helped to establish a really strong connection with it. He is very friendly and polite, price is good and he is very flexible about time. I strongly recommend Basti to everyone. You will learn how to enjoy your dog to the fullest 😊😊.

We were at our wit's end with our dogs and unsure how to get them to listen to even basic commands. We'd had already had a bad experience with another trainer but my friend suggested to give Basti a call. As soon as Basti arrived, he played around with the dogs, familiarising himself with them and the environment. From the 1st session (no exaggeration here!) there was such a massive change towards their behavior that we couldn't believe! Basti is firm but loving with the dogs, and they loved training with him. We also did some "off-site" sessions to socialise the dogs and to train them to listen to us outside our home environment. He gave us our confidence back on how to deal with them and he is always open to follow-up questions. We couldn't be happier and I would definitely recommend Basti to anyone needing some help with their pets.

This is the best thing ever happened to us calling Sebastian and ask for help training our beloved dog. Being a Soi dog we were worried if she can even be trained, but in only 10 sessions she has transformed so much and her behaviour has improved 10 times. We also went on holiday and left our dog for 3 weeks with Sebastian, (even though we picked her up 1 day earlier because we missed her) 😊.

We will definitely continue on, because we can see fast improvements in her behaviour and we know how much our dog loves both of them. He is firm but also lovingly with our dog and she has fun being trained.

Thank you so much and I can only say good things about Dogs@Zoeta, if you want to improve your dogs behaviour, check them out it is well worth it!

**Positive:** Quality, Reliability

Our dogs were able to improve various behavioral problems in 10 basic courses with them. They treated her flexibly and patiently. If someone plan to keep a dog or are suffering from dog behavior problems, they help you very kindly.

(Translated by Google) He managed to turn a soi dog into a house dog in 10 sessions. He has years of experience and you can tell that too. I can only recommend him without reservation. I give him 10/10 service points 9/10 points for punctuality 10/10 for professionalism
